

# Installing a Kali VM

---

## Steps:

- Download Kali <https://www.kali.org/get-kali/#kali-virtual-machines>
  - Download the one optimized for your specific VM software
- Download VirtualBox <https://www.virtualbox.org/wiki/Downloads>
- Install VirtualBox
- Kali install guide: <https://www.kali.org/docs/virtualization/import-premade-vmware/>
  - Unzip the kali.7z somehow, `7z x kali-linux-2022.3-virtualbox-amd64.7z`
  - Once unzipped, double click the .vbox option
  - in VB select the VM and click start
  - Login with kali/kali
